

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1 Claim 1 (original): An identification card, comprising a
2 card body with graphic identification information, light
3 emission means which, under particular conditions, are
4 suitable for emitting the identification information in
5 visible or invisible light, which light emission means
6 comprise an electrical source-connectible, substantially
7 flat light emitting diode (2), hereinafter designated by
8 FLED, which comprises one or more layers (8 ... 13) needed
9 for light emission, which contain at least a part of the
10 graphic identification information.

1 Claim 2 (original): An identification card according to
2 claim 1, wherein the FLED is a Polymer FLED.

1 Claim 3 (original): An identification card according to
2 claim 1, wherein the FLED is an Organic FLED.

1 Claim 4 (original): An identification card according to
2 claim 1, wherein the graphic identification information is
3 contained in the shape of the respective layer or layers.

1 Claim 5 (currently amended): An identification card
2 according to claim 1-~~or~~4, wherein the graphic
3 identification information is contained in the composition
4 of the respective layer or layers (7, 8, 12).

1 Claim 6 (currently amended): An identification card
2 according to claim 1, ~~4 or 5~~, wherein the graphic
3 identification information is contained in the shape and/or
4 intensity of the electrical field in the respective layers
5 as effected by the electrical source, and the electrical
6 current through the respective layers as effected by the
7 electrical source, respectively.

1 Claim 7 (original): An identification card according to
2 claim 1, comprising an internal electrical source
3 connectible with the light emission means.

1 Claim 8 (original): An identification card according to
2 claim 1, comprising means (3) for connecting an external
3 electrical source with the light emission means.

1 Claim 9 (currently amended): An identification system,
2 comprising means (17, 18) for detecting the identification
3 information emitted by the light emission means of an
4 identification card according to ~~one or more of claims 1 to~~
5 &claim 1.
